

Oxfordshire Sustainable Business Partnership Business Breakfast or Supper

How can your business save money and help the environment?

Come and network with other Oxfordshire Businesses and take part in this informal event aimed at exploring how businesses can save money, become more efficient and more profitable; by saving water, energy and cutting waste.

Winners and runners up from the Oxfordshire Business Awards Environment Category 2006 will be present to share their best practices and ideas with you.

Find out how you can influence the Public Sector by exploring these key questions:

'What does the public Sector need to do differently to help businesses/organisations adopt sustainable business practices?'

'What is the impact of key legislation on your business/ organisation?'

'How can a level playing field be created/maintained?'

This exclusive and free business event will be held twice, please book for your preferred date/location. Places will be limited so early booking is recommended.
